

## Deferred Admissions and Leave of Absence Information for Parents

Prior to your student leaving:

- Make sure he/she has completed a Deferred Admission or Leave of absence form, and authorized you to transact business on his/her behalf. If he/she has a scholarship, you will also want to ensure that he/she also selected the box requesting to defer his/her scholarship.
- Ask your student for a copy of his/her completed Information Sheet. The sheet will list the information necessary to access their account, and will also provide you with a list of suggested courses they should register for when they return. Keep this sheet for the duration of your student's absence.

Helping your student return to DSU:

- If your student is a Freshman, they need to visit <http://dixie.edu/futurestudents/register.php> to sign up for the online registration video. In situations where the student is not available to watch the video, we suggest that the authorized parent watch the video and register for the student. Once the student returns, they can also watch the registration video.
- The student (or the person registering for the student) can refer to the Information Sheet that was completed prior to the student leaving. This sheet will have the student's login information, and will also list the suggested courses the student should register for.
